

PARK UNIVERSITY

Founded in 1875 in Parkville, Mo., a suburb of Kansas City, Park University has developed into a comprehensive, independent, Master's I institution that is a national leader in higher education. In 2000, Park achieved university status and now serves 25,169 students annually on 42 Campus Centers in 21 states and Online, including Campus Centers in Parkville, Independence, Kansas City, and Lexington, Missouri, and Austin, Texas.

Park continues to increase access to higher education by offering the quality undergraduate and graduate degrees students desire at locations, times and delivery formats that best serve their needs. Providing such access has developed considerable diversity among the student population, with more than 500 international students from 106 countries, and a 42 percent student representation from racial, ethnic and cultural groups typically under represented in colleges and universities. The University has repeatedly been recognized as one of the top 100 American colleges/universities in the nation graduating Hispanic, African-American and American-Indian students. In addition, extracurricular activities and championship-caliber athletic programs complement Park's outstanding scholastic programs.

or email pssc@park.edu.

Profile

Type: Private, four-year, coed, comprehensive Liberal Arts University

Accreditation: Higher Learning Commission of the North Central Association of Colleges and Schools

Financial Aid: More than 85% of undergraduates receive some form of financial aid

Scholarships: For offerings and qualifications go to www.park.edu

Male/Female Ratio: (2008) 49 % male, 51% Female

Enrollment (Full-time day):1500

Entrance Requirements: Transfers must have 2.0 cum GPA in all undergraduate work.

Tuition: \$298 credit hour for 09-10

Room/Board: varies depending on type of housing required

Fees: \$25 application fee - nonrefundable

\$50 student activity fee (for full-time students)-nonrefundable

\$25 student activity fee (for part-time students)-nonrefundable

Unique Majors: ESL Program, School of Business, School of Education, Psychology, Athletic Training, English, Social Work, Geology, Art and Design, Theatre, Spanish, Music, Communication Arts and many more.

Athletics offered: NAIA-Men's and Women's Basketball, Track and Field, Cross-Country, and Soccer, Volleyball; Women's Softball and Men's Baseball; Women's Golf, and intramural sports

Transferring to Park...
2009-2010
PARKVILLE CAMPUS (16 WEEK) DAY PROGRAM

Admission Standards

1. A cumulative GPA of 2.0 in all previous college course work.
2. Students whose GPA is below 2.0 may be individually evaluated. If accepted, the student will enter Park on academic probation.

To Apply . . .

The Office of Admission must receive each of the following before an admission decision can be made. To insure that your file is complete, check each item off as you submit it.

- _____ Complete the online application for the Parkville Daytime Campus Center by going to www.park.edu and click on apply now.
- _____ Non-refundable \$25.00 application fee; can be paid online with the application, mailed or walked in.
- _____ Official transcripts from each college or university you have previously attended
- _____ ACT/SAT test required of all teacher education students

Deadlines

Applications may be submitted through the final registration date for each semester.

Admission Notification . . .

Park University recognizes your need to know at the earliest possible time. Therefore, as soon as your file is completed, the Admissions Committee will review your credentials. You will be notified of the admission decision.

General Guidelines for transfer to Park

- * Students transferring to Park must meet all degree and major requirements as outlined in the catalog in effect when admitted.
- * All course work carrying a grade of "C" or better will be assessed on a course-by-course basis.
- * A maximum of 75 semester hours may be applied from all 2 year school sources.
- * Students must complete a minimum of 30 semester hours at Park University to meet residency. At least 15 hours of the 30 must be in the major.
- * Transfer students are required to take an assessment test for English and/or Mathematics if not transferring equivalent courses for English 1 and 2 ('C' or better) and a college level Mathematics course ('C' or better). Assessment tests are scheduled each semester prior to early registration.
- * Transfer credits do not become a part of the overall GPA at Park.
- * If a course has been repeated, only the highest grade is used in computing the GPA for admission purposes.
- * "P" grades will not transfer unless school catalog states that "P" = C or better.
- * Courses that are developmental will not transfer.
- * Courses that are vocational in nature, i.e. auto mechanics, carpentry, etc. will not be accepted for transfer.

**OFFICIAL DECISIONS REGARDING THE TRANSFERABILITY OF PREVIOUS
COURSEWORK ARE DETERMINED BY THE REGISTRAR'S OFFICE.**

NOTE: For admission to the Online, Nursing, Alternative Certification or Metro Park/evening/weekends programs, please contact the respective department for appropriate deadlines and admission policies and procedures at 816-741-2000.

To schedule a campus visit or a transcript evaluation, call 816-584-6800 or 1-877-505-1059.

Students transferring to Park University from Kansas City Kansas Community College with an Associate degree (excluding AAS) can expect junior standing and acceptance of a minimum 60 credits. No more than 75 credits will be accepted from all two-year college sources. To assure completion of Park’s university-wide graduation requirements, the following coursework should be included in the Associate Degree.

Park University

Kansas City Kansas Community College

EN 105	Writing Strategies & Concepts	3 cr.	ENGL 0101
EN 106	Writing Purposes Research	3 cr.	ENGL 0102
WCT	Writing Competency Test		No Equivalency
EN 306	Professional Writing in the Disciplines	3 cr.	No Equivalency
MA 131	College Algebra	3 cr.	MATH 0104 or 0105 Intermediate or College Algebra
Two semesters of same language			2 semesters French, German OR Spanish
Science with lab			Biology, Chemistry OR Physics

For students transferring to Park with an Associates of Arts or Science degree, the general education required curriculum will be complete provided the student has successfully completed the following with a “C” or better:

- 6 cr. in the Division of Humanities
- 6 cr. in the Division of Natural Sciences
- 6 cr. in the Division of Social Sciences

Courses within the Associates degree carrying a “D” grade will be accepted as electives only and will not be accepted as satisfying any Park University requirement including the coursework needed to fulfill the general education component.

For students transferring to Park without an Associates degree or with an Associate of Applied Science, the general education required curriculum can be met as follows provided each course carries a “C” or better.

GENERAL EDUCATION (GE) (27 hours)

At least nine credits in each of the three academic divisions. Each general education course must be from a different discipline. One introductory General Education course from the student’s major discipline may be counted toward the 27 hours.

HUMANITIES

ENGL0104 **OR** ENGL0108 **OR** ENGL0109; FNAR0101 **OR** FNAR0102 **OR** FNAR0103 **OR** FNAR0111; MUSC0101; SPCH0151 **OR** SPCH0153; HUMN0101 **OR** HUMN0102; PHIL0103, **OR** PHIL0105; MUSC0101; THTR0101**OR** THTR0105 **OR** THTR0115;

LIBERAL LEARNING (LL) (9 hours)

This nine hour requirement (3 courses) must be taken at Park University; it cannot be fulfilled by transfer courses.

No Equivalency

Park University Liberal Education Requirements planned for 2010-2011 Catalog

The Liberal Education (LE) Program at Park University - *Integrative Literacies for Global Citizenship* - is education that develops an awareness of human potentials. It develops proper attitudes for realizing such potentials through critical and informed judgements that foster concern for individual and social well-being. It develops a love for learning by encouraging activities that promote knowledge of the basic concepts, methodologies, and rewards of learning. It builds skills and competencies that help students acquire the distinctive outcomes defined in the University vision, mission, core values, and literacies.

The following curriculum is required of students in all Bachelors degree programs, at all Campus Centers, and in all modes of instruction who enter the University for the first time under Catalog 2010-11.

Core Courses	Credits
EN 105, First Year Writing Seminar I	3
EN 106, First Year Writing Seminar II	3
MA 120, Basic Concepts of Statistics <i>or</i> MA 131, College Algebra, <i>or</i> higher	3
CA 103, Public speaking <i>or</i> TH105, Oral Communication, <i>or</i> CA 105 Introduction to Human Communication	3
CS 140, Introduction to computers <i>or higher or departmental equivalent</i>	3
Science with a lab	4
Liberal Education Electives	
At least 6 hours of LE designated courses in the Social Sciences	6
At least 6 hours of LE designated courses in the Arts & Humanities	6
At least 3 hours of LE designated courses in the Natural and Applied Sciences (except computer science)	3
LS 300, Seminar in Integrative and Interdisciplinary Thinking	3
Total	37 credits

Not included in the Liberal Education Program are the following graduation requirements:

- LS 100, First Year Student Seminar (for first-time freshman)
- EN 306, Professional Writing in the Discipline (or Departmental equivalent)
- The Writing Competency Test

Because other graduation requirements, like the requirement for competency in a Modern Language, may vary according to academic degree (AA/BA/BSW/BS/BPA), consult the most current University Catalog (<http://www.park.edu/catalog>) to confirm graduation requirements.

ACCOUNTING

The accounting major is designed to prepare students for a professional career in public accounting, managerial accounting, tax accounting or governmental accounting. The curriculum stresses professional ethics. It is excellent preparation for graduate study in accounting, business administration or law. Bachelor of Arts degree.

John Cookinham
 Department Chair/Assistant Professor of Accounting

FINE ART

Students majoring in Fine Art can pursue in depth work in painting, drawing and ceramics. Fine Art majors frequently work toward K-12 art education certification in concert with their studio majors; others go on to graduate school or set up their own studios and begin actively producing their art work while finding employment in related fields. Bachelor of Arts degree.

Donna Bachmann

GRAPHIC DESIGN

Students majoring in Graphic Design produce most of their work in the digital environment of Park University's fully equipped Macintosh studio. Today, most artists earn a living by producing a wide range of visual materials for publication. Graphic design students learn visual communication, typography, layout, illustration and photography while building professional quality design portfolios. Instruction models conditions in the professional environment. Internship opportunities in graphic design firms and other professional settings provide real world experience and a transition to the world beyond the campus. Bachelor of Arts degree.

INTERIOR DESIGN

“The professional interior designer is qualified by education, experience and examination to enhance the function and quality of interior spaces for the purpose of improving the quality of life, increasing productivity and protecting the health, safety and welfare of the public.” (Foundation for Interior Design Education and Research) Students majoring in Interior Design at Park University combine the common body of knowledge in interior design with the intellectual development found in a liberal arts education. A sequence of design studios and graphic communications studios with supporting lecture courses provides the practical content integral to the profession. Bachelor of Arts degree.

ATHLETIC TRAINING/SPORTS MEDICINE

The athletic training major, accredited by CAAHEP (Commission on Accreditation of Allied Health Education Program), provides graduates with a variety of courses and practical work experiences related to the prevention, care, and rehabilitation of athletic injuries. Admission to this program occurs prior to the sophomore year. Transfer students who qualify to be at the sophomore level or higher will be required to apply to the athletic training program prior to enrollment in athletic training courses. Acceptance is based on a minimum overall grade point average, success in designated professional courses, recommendations, athletic training competencies, and a minimum completion of observational hours under the direct supervision of a Certified Athletic Trainer. Placement of students within the clinical and didactic portions will be based on past experiences and performances. Once accepted into the program students will be required to do a total of at least 1000 observational hours over no less than four semesters but no more than a five-year period. Students will be responsible for clinical rotations each semester they are enrolled in the program. Upon completion of the athletic training major, students are eligible to apply for the National Athletic Training Association certification exam. The career outlook for athletic training specialists is excellent. Positions for Certified Athletic Trainers include public high schools, private secondary schools, colleges and universities, professional sports teams, sports medicine clinics and fitness facilities. Professional and graduate schools complement the athletic training major by offering curricula in health-related areas such as physical or occupational therapy, biomechanics, exercise physiology, and health promotion. Bachelor of Arts degree.

BIOLOGY

The major in biology provides the graduate with a variety of courses for a diversity of experience in biology. This program includes courses in general biology, botany, anatomy, physiology, genetics, microbiology and research techniques. With the basic core courses, plus required supporting chemistry, mathematics and elective biology courses, the biology graduate should be prepared for either the workforce or entrance into professional or graduate school. Students are strongly advised to seek either an additional major or a minor to provide for maximum postgraduate opportunities.

BUSINESS ADMINISTRATION

Students taking the business administration major receive a broad education covering the major functional areas of business. This major will help a student prepare for a career in business or government leadership and provide him or her with knowledge and skills desired by all types of employers. It can also give one the background to organize and manage his or her own family business. Graduates in business administration typically find jobs in business such as production management, personnel management, marketing management, or financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management, or other business specialties. Bachelor of Arts degree.

BUSINESS ECONOMICS

This degree program is designed to give students a comprehensive economics education with a major emphasis in business and a focus throughout on international subjects. This degree prepares students for staff and management positions in business, government and international organizations. Students who plan to attend Graduate School will find this major provides an excellent basis for advanced degrees in Economics, Business, and/or Law. Bachelor of Arts degree.

CHEMISTRY

In contemporary society, it is evident that the science of chemistry is no longer confined to the research laboratory, but is exerting a profound impact on social, political, and economic decisions at the local, national, and international levels. Chemistry is the recognized physical basis for the biological and psychological sciences and is important in every aspect of our industrialized society. Students wishing to pursue a career in the chemical profession, medicine, dentistry, veterinary medicine, laboratory technology, or the environmental sciences are encouraged to consider the major program in chemistry with appropriate minors in other disciplines for their preparatory work. Bachelor of Arts or Science degree.

COMMUNICATION ARTS

The Communication Arts Department offers five related concentrations: 1) journalism, 2) broadcasting, 3) communication theory and human relations, 4) photojournalism, and 5) public relations. These communication arts majors are designed to prepare the student for successful pursuit of occupational goals and an individual graduating from this program will also be equipped to function well in the larger setting of society. Each major combines traditional course work with practical application in the field of choice. This has proved to be invaluable to professionally oriented students and may take the form of internships, private employment, or work assignments (or a combination of all three). In the print journalism and photojournalism majors, students work for academic credit on school publications: The Stylus, the century-old Park newspaper, and Narva, the yearbook. In the electronic media, students work at KGSP-FM, the Park University radio station, or in the production of programs for the Platte-Clay commercial cable service. Students who select the communication theory and human relations or the public relations majors often have specific occupational goals in mind, such as public relations, personnel management, human resources or related fields. Bachelor of Arts degree.

John Lofflin

INFORMATION AND COMPUTER SCIENCE

The Information and Computer Science (ICS) curriculum prepares students for a broad range of computer opportunities in industry as well as in graduate studies. ICS students choose one of the five specialty areas: Computer Science, Software Engineering, Systems Analysis, Data Management or Networking. Depending on their chosen specialty area, ICS graduates are well prepared for these industry positions: web programmer, applications programmer, systems analyst, information technology (IT) project manager, database analyst, or network analyst. Bachelor of Science degree.

CRIMINAL JUSTICE ADMINISTRATION

The major in criminal justice administration is designed to provide a comprehensive understanding of the complete criminal justice system within society in the United States. This comprehensive understanding will be based on theoretical, philosophical, and practical knowledge of criminal justice. This understanding will provide a broad background for over 40 basic career opportunities in the criminal justice system, both in the public sector and in the private sector at the local, county, state, and national levels. There are three areas of concentration, building upon the basic courses: Law Enforcement, Corrections, and Security. Bachelor of Arts degree.

ECONOMICS

This degree program is designed to give students in-depth education in one of the applied social sciences. Economics is the social science which investigates the conditions and laws affecting the production, distribution and consumption of wealth in an organized society. Students who major in economics use their degree in working for business, government and other institutions serving in various staff and management positions. Many students combine the economics major with another related major such as political science, computer science, business or communications which broadens the range of options available to them. Others plan to do graduate work in economics or other areas which qualifies them to serve as economists or other specialists in government, business or higher education. Bachelor of Arts degree.

TEACHER EDUCATION

The School for Education offers certification in Early Childhood, Elementary, Middle School and Secondary Education. Completion of the initial certification process enables a person to teach in pre-schools, elementary, middle schools, junior or senior high schools, either public or private. Completion of advanced certification in Education Leadership enables a person to serve as a school administrator, Special Education, Literacy Education, and Educational Leadership. Philosophical, historical and modern methodological approaches to education are studied. A variety of in-school activities, culminating in student teaching, is an integral part of the program. Because many education courses require out of classroom and off campus visits to learning facilities, students must be prepared to provide their own transportation. Bachelor of Science in Education degrees.

Teacher Certification: The Park University Education Program is approved by the Missouri Department of Elementary and Secondary Education. Upon completion of the program, passing the appropriate PRAXIS test, recommendation by Park University, and application by the student, a Missouri Teaching Certificate is issued by the State of Missouri. If students wish to be certified in any state other than Missouri, they must plan their course of study to reflect that state's requirements.

The following endorsements are available:

Early Childhood Education--- A major in early childhood education requires a cumulative GPA of 2.75 or better.

Elementary Education---A major in elementary education with a cumulative GPA of 2.75 or better.

Secondary Education---A major in Secondary Education.

K-12---A major in Secondary Education and the completion of the appropriate content courses in Art or Spanish with a cumulative GPA of 2.75 or better is required. Additional information regarding this certification is available from the School of Education.

Middle School---A major in Middle School Education with two areas of concentration recognized by the State of Missouri and the completion of the professional requirements in Middle School with a cumulative GPA of 2.75 or better is required. Information regarding middle school teaching areas is available from the School of Education.

EARLY CHILDHOOD EDUCATION AND LEADERSHIP

The Bachelor of Arts degree in Early Childhood Education and Leadership is designed to prepare graduates for positions of responsibility and leadership in Head Start programs, child care centers, private preschools, and family child care. The degree program combines knowledge of child development and learning; family and community relationships; observation, documentation, and assessment; concepts and tools of inquiry in the content areas; curriculum development; effective teaching strategies; guidance; professionalism; and leadership, including basic knowledge of program planning and evaluation, and human and financial resources. Does not result in certification.

Areas of Concentration:

Students should plan the courses needed for the area of concentration with his or her advisor. A total of at least 21 semester hours is necessary in an area of concentration approved by the student's advisor.

Language Arts
 Mathematics
 Science
 Social Studies
 Science and mathematic
 Art
 Fine Art

ENGLISH

English majors may concentrate on either of two programs: language and literature or writing. Both programs encourage students to explore many facets of human nature and culture through the study of literature and to develop understanding and skillful use of language. Both concentrations help students acquire the knowledge, analytical skills, and writing abilities needed by such professionals as writers, editors, teachers, business managers, and lawyers. Bachelor of Arts degree.

GEOGRAPHY

The skills obtained by studying geography make graduates in demand for a wide range of employment opportunities. The geography curriculum will prepare students for business and academics while encouraging life long learning skills. The link between geography and the world (cultural and physical) makes a varied list of careers. Geographic skills are essential to understanding physical patterns, human patterns, and Earth's processes. These skills are important for anyone critically thinking about the global community. Students majoring in Geography will choose one of four specialty areas: Cultural Geography, Human Geography, Physical Geography, or Technical Geography. Bachelor of Arts or Science degree.

GGP 370	Biogeography (3 cr.)		
GGP 390	Special Topics in Physical Geography (1-4 cr.)		
GGP 450	Internship in GIS (3 cr.)		

HISTORY

History affords the opportunity to appreciate the diversity of human encounters through the inquiry of one's own and other's cultures and societies as they have developed over time. The study of history is a meticulous intellectual discipline involving research techniques, problem solving, and the critical evaluation of evidence. Historians seek and critique what women and men of the past have left behind, what they have created and what imprints they have left on the global society.

The study of history prepares students for a wide range of occupations and professions such as: graduate studies, museum administration, historic preservation, teaching, government, law school, archival, business, and publication. Bachelor of Arts degree.

Dr. Tim Westcott

Department Chair/ Associate Professor of History

816-584-6364 or 816-741-2000 ext. 6364

Areas of Concentration: 30 cr.
Applied History with New Media
European/Classical
United States

HIS 103	Introduction to the Ethics of the Historical Profession	3 cr.
HIS 400	History in the Public Realm	3 cr.
HIS 451	Thesis I	3 cr.
HIS 452	Thesis II	3 cr.

Students need to consult with advisor before taking History courses.

LEGAL STUDIES

The Bachelor Degree in Legal Studies is meant to prepare students to be successful in law school or in graduate schools leading to legal careers.

The program emphasizes critical thinking, logical reasoning, analysis of contemporary legal and social issues, reading and writing. The internship allows students to see the practical application of their studies. Bachelor of Arts degree.

LIBERAL STUDIES

The liberal studies major allows the student a major composed of various disciplines within the division of Humanities and Performing Arts rather than one discipline only. It therefore emphasizes breadth, while requiring a concentration of 15 credits in a single discipline. It is intended that, by broadening the student's cultural perspective, heightening the student's analytical powers, and providing models for understanding experience, the liberal studies major will make a valuable contribution to whatever vocation the student elects. It may be taken along with vocational courses, or as a second major, or as preparation for a graduate or professional degree. Bachelor of Arts degree.

Dr. Dennis R. Okerstrom

Program Coordinator of Liberal Studies and Associate Professor of English
816-584-6337 or 816-741-2000 ext. 6337 Email: dennis.okerstrom@park.edu

Core Curriculum:

LS 211 Introduction to the Humanities
LS 212 Introduction to the Arts
LS 301 Contemporary Issues
LS 400 Senior Project

Modern Language

Concentration in one of these areas:

Art, History, Music, Philosophy, Religion, English,
Communication Arts, Peace Studies, Psychology,
Political Science, Sociology or Theatre

Upper-level electives chosen from among the following disciplines, but not in the discipline of the concentration:

Art, History, English, Music, Theatre, Peace Studies,
Psychology, Political Science, Sociology,
Communication Arts, Philosophy or Religion

Kansas City Kansas Community College

3 cr. HUMN0101 Introduction to Humanities I
3 cr. HUMN0102 Humanities II
3 cr.
6 cr.

8 cr. German, Spanish. French

15 cr.

9 cr.

MATHEMATICS

Mathematics is both a body of knowledge concerning a class of symbols and the relation between them as a system of thought and communication, as well as application of that system to other areas of human experience. As a system of thought, it derives from philosophy and provides a language which has particular beauty and clarity. Applied to other areas of human experience, mathematics has provided great power and precision to a wide range of endeavors, and thereby has supplied an essential contribution to the rise of modern civilization. The study of mathematics prepares students for graduate studies in mathematics, related sciences, economics and business administration. Other options include beginning actuarial work, teaching at the secondary level and beginning work in the area of data processing. Bachelor of Arts degree.

At least four courses from the following: 12 cr.

MA 302	Ordinary Differential Equations (3 cr.)
MA 350	Mathematics in Civilization (3 cr.)
MA 360	Modern Geometries (3 cr.)
MA 370	Number Theory (3 cr.)
MA 380	Mathematical Statistics (3 cr.)
MA 401	Analysis (3 cr.)
MA 402	Topology (3 cr.)
MA 406	Special Topics (3 cr.)

Kansas City Kansas Community College

MATH0122	Calculus & Analytic Geometry I
MATH0123	Calculus & Analytic Geometry II
MATH0224	Calculus & Analytic Geometry III
MATH0227	Differential Equations

Written or oral examinations may be required for the major. Two semesters of French or German are recommended.

MUSIC

The objective of the music curriculum is to develop within students, excellence in creating, performing, and appreciating music. The program's course offerings provide the opportunity to: (1) pursue careers in music; (2) develop one's perception of the intrinsic aesthetic values within musical expression; (3) understand the interrelatedness of music to culture; (4) prepare for service in local and global community; and (5) relate music to life-long learning. The program serves the total student body by providing ensembles, lessons, and courses, which are open to all students. Also, the program makes available to the student body concerts and recitals throughout the year in the Graham Tyler Chapel. Programs of study for students choosing music are a Bachelor of Arts in Music with an Emphasis in Applied or General Music, or Music Minor with Emphasis in Applied, Music History or Music Theory. Bachelor of Arts degree.

BI 378	Ecology	4 cr.		

*Students seeking middle school science teaching certification should substitute PY 155 and PY 156 for PY 205/PY 206 and MA 141 and a CS elective for MA 210/MA 211 in the major.

POLITICAL SCIENCE

The Bachelor Degree in Political Science provides students with information and abilities to become participative citizens and cope with the problems of modern politics. The degree also seeks to prepare well-rounded students for careers in the public sector and to prepare those who seek admission to graduate school.

Specific requirements have been kept to a minimum, with an emphasis on breadth rather than specialization. Analytic skills, especially critical thinking, are stressed in all courses. The Senior Project provides an opportunity for students to develop research skills while the Internship exposes the students to opportunities for practical applications of what they have learned. Bachelor of Arts degree.

PSYCHOLOGY

Psychology is both a science and an applied profession. Psychology is a broad discipline that deals with behavior and mental processes. Career opportunities include work in counseling, personnel, business, industry, research & development, advertising, college teaching, medical settings, basic research, criminal justice and government. For those students interested in becoming licensed psychologists or professional researchers, the major is designed to prepare them for possible graduate training. Bachelor of Arts degree.

SOCIAL PSYCHOLOGY

Social Psychology blends the strengths of psychology and sociology. It studies the ‘person in the situation,’ and integrates knowledge about individual, group, and organizational processes. It is an adaptable major that trains students for a wide range of career options, and it is personally useful in every facet of your life beyond mere employment. Social Psychology trains you to see yourself, others, and the cultures and societies we live in more clearly, critically, and completely. Bachelor of Science degree.

BACHELOR OF SOCIAL WORK

The social work degree program prepares students for beginning professional social work practice in a wide variety of social service settings. As generalist social work practitioners, graduates will be prepared to work with a diversity of client populations, particularly those who are vulnerable or economically deprived. The program includes both classroom work and a two-semester (450) internship.

Criteria for admission to the Bachelor of Social Work Degree include:

1. Completion of 60 credit hours of college coursework
2. Cumulative GPA of 2.50 or higher.
3. Two letters of reference.
4. Successful completion of Park University's Writing Competency Test
5. Completion of: EN105, EN106, SO141 and PS101 or equivalent transfer courses.
6. Completion of the Introduction to Social Work course with a grade of C or better.
7. Completion of an essay, written in a supervised setting which relates to the students interest in the social work profession.

Student should contact the Social Work Department to obtain admissions information packet

SPANISH

The Spanish Major is designed to assist students in the acquisition of this language, as a tool of communication to be utilized in the local, national, and global communities. Along with the study of the Spanish language, the study of the Hispanic and indigenous cultures is an intricate part of the program. The emphasis of this program is on cultural studies and the development of skills for communication in the present day world. The study of literature will serve as a vehicle to a better understanding of the language and culture. Bachelor of Arts degree.

Native speakers may take an additional 3 hours of credit through Spanish 310, in order to substitute Spanish 201.		

SOCIOLOGY

Sociology is the study of people in groups, their interactions, identities, and the societies, institutions, and cultures they create. As a social science, it combines the scientific and humanistic perspectives to study the full range of human experience and helps us understand pressing social issues and connect them to individual human concerns. It is a valuable liberal arts major that prepares students for a variety of careers in business, government, human and social services, and social research and data analysis. It teaches students to collect, analyze, interpret, and apply valid and reliable data and explanations to personal decisions and to public and organizational policies. Bachelor of Arts degree.

THEATRE

In recognition of the fact that theatre is the one art and one science that encompasses all other arts and sciences in its practice and execution, the Park University Bachelor of Arts in Theatre degree is a truly multi-disciplinary program that incorporates courses from a variety of disciplines to ensure a well-rounded - and well-grounded - graduate with an integrated liberal arts degree. The dual emphasis in performance and design provides the student with a wealth of course-to-study options. Included in the Performance emphasis are three required courses in Psychology and a required English course in Shakespeare. Integral to the Design emphasis are five required courses in Art, Interior Design, and the computer-assisted design process. Inclusion of these courses in the major curricula creates very accessible opportunities to acquire a double-major (or minor) in the areas of Psychology, Art, Design, or English. Additionally, the interdisciplinary nature of the program requires intensive attention to oral and written skills in addition to the development of the creative, “out-of-the-box” style thinking that is currently in great demand by a broad spectrum of professions. Bachelor of Arts degree.
