MEET THE MARTINSON FAMILY

LIVING, LOVING, AND THRIVING IN OAK HILL ESTATES

Hello, neighbors! We are the Martinson family, and we're thrilled to share a bit about our lives with you. We hope this gives you a glimpse into who we are, what we love, and why we cherish living in Oak Hill Estates.

First, let's introduce ourselves:

I'm 33 years old, originally from Ghana, and I came to the U.S. to study Business at Park University in Parkville, Missouri. I now work as a manager of a business analytics team at Associated Wholesale Grocers, a company that supplies grocery products to independent supermarkets like Price Chopper, Hen House, and Sun Fresh.

My wonderful wife, Jamie, is 36 years old and has a bachelor's in fine arts from Park University. She has worked at the Early Learning Center at Advent Health in Shawnee Mission for 10 years. Recently, we also started an interior design business together, JDI DESIGNS (Jamie Dougie Interior Designs), inspired by the support of our friends and family.

Our oldest son, Aven, is 7 years old. He's very much like Jamie, with a passion for art and creativity. He excels academically and loves performing and creating.

Our youngest, Aker, is a lively 3-year-old. He's full of personality, always keeping us entertained with his antics.

Our 2-year-old Border Collie mix, Lennon, is named after the legendary John Lennon. We are big music enthusiasts, and she fits right into our energetic family.

Jamie and I met at Park University back in 2009. One of our favorite memories together is our first date, which was a skydiving adventure. Jamie showed her daring spirit when she was literally blown out of the tiny plane once the door opened. Luckily, our six hours of skydiving training paid off, and her parachute deployed just fine. From that moment, I knew Jamie was the one I wanted to take life's biggest risks with. We've now been together for 15 years and married for 10, sharing countless adventures and raising our two wonderful sons.

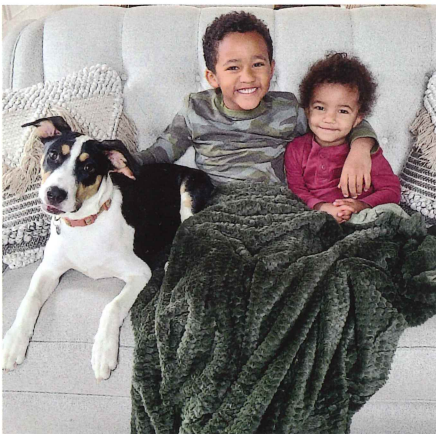

I have a Master's in Business Administration from Baker University and a Bachelor's in Business Administration with a Minor in Economics from Park University. As mentioned earlier, I work at Associated Wholesale Grocers, leading a business analytics team.

Jamie, with her fine arts degree, has been dedicated to her work at the Early Learning Center. Her passion for creating beautiful spaces led us to start our interior design business, where we aim to bring our unique vision to homes and businesses.

As a family, we love being outdoors, biking, camping, and traveling. Jamie and I recently combined our interests and launched our interior design business, turning our passion into a professional venture. We also enjoy participating in community events and staying connected with our neighbors.

We've lived in Oak Hill Estates for nine years, choosing this area because we wanted to raise our family in the Staley school district. Our neighborhood is quiet, friendly, and full of character. We help each other out, look out for one another, and support local events and gatherings. It's truly a wonderful place to live.

One fun fact about our family is that Jamie's art projects around our home have attracted close to a million views on TikTok! It's amazing to see people from all over the world enjoying a little glimpse into our lives.

When it comes to travel, we are passionate about exploring different cultures. Last year, we visited Ghana, Hawaii, and Uganda. Next year, we plan to go to Singapore. Our goal is to expose our kids to the diverse cultures and people that make up our world.

We are happy to be part of this community and look forward to many more years here. Let's continue to look out for each other and make Oak Hill Estates an even better place to live.

Thank you for taking the time to learn about our family. We look forward to connecting with more of you and sharing in the wonderful community spirit of Oak Hill Estates. ■

Sweet dreams are made of this...
